

ATHLETICS 2023 COLLECTION

Vestiamo lo sport
da produttore,
con una cultura Sartoriale.

Seguiamo ogni cliente con la stessa cura e
professionalità

Dressing sport as a
manufacturer
with a tailoring culture.

We dedicate the same care and professional
approach to every customer

Nous habillons le sport
en tant que producteur
possédant une grande culture
de la couture

Nous suivons chaque client avec le même soin et le
même professionnalisme

Dal 1988 produciamo capi sportivi e tecnici in grado di migliorare le performances di chi vive e ama lo sport, assicurando i massimi standard di qualità, sicurezza e comfort. Il servizio e la cura del cliente sono la nostra priorità: la nostra principale e grande responsabilità è la soddisfazione e l'attenzione verso il consumatore.

Ci distinguiamo dai principali competitor perché siamo la prima azienda in Europa nel settore teamwear ad avere ottenuto la certificazione Oeko-Tex Standard 100, un ulteriore attestato che ci rende orgogliosi del lavoro svolto quotidianamente. Nella sede di San Polo di Torrile gestiamo l'intera filiera produttiva e lo sviluppo di tutte le fasi di lavorazione del prodotto, dalla selezione delle materie prime alla progettazione dell'aspetto grafico, dalla produzione dei prototipi fino alla consegna del capo finito.

Scegliamo di essere produttori perché ci permette di garantire la massima sicurezza grazie a meticolosi controlli interni. L'efficace gestione aziendale si impegna ogni giorno a monitorare e migliorare l'organizzazione e il controllo, ottimizzare i processi, ridurre le inefficienze, contribuendo così alla qualità dei prodotti e servizi. Grazie al prezioso lavoro quotidiano, abbiamo ottenuto la certificazione ISO 9001:2015.

Oggi siamo presenti in 80 paesi, in costante ricerca di nuovi mercati e nuove sfide.

Depuis 1988, nous produisons des articles sportifs et techniques en mesure d'améliorer les performances de ceux qui vivent et aiment le sport, en assurant les plus hauts standards de qualité, de sécurité et de confort. Le service et le soin du client sont notre priorité : notre grande et principale responsabilité est la satisfaction et l'attention envers le consommateur.

Nous nous distinguons par rapport à nos principaux concurrents car nous sommes la première entreprise en Europe dans le secteur du teamwear à avoir obtenu la certification Oeko-Tex Standard 100, une attestation supplémentaire qui nous rend fiers du travail réalisé quotidiennement. La gestion de l'ensemble de la filière de production ainsi que le développement de toutes les étapes de réalisation du produit, sélection des matières premières, projet graphique, production des prototypes et livraison des vêtements finis - ont lieu au siège de San Polo di Torrile. Nous choisissons d'être producteurs car cela nous permet de garantir la sécurité maximale grâce à des contrôles méticuleux que nous réalisons en interne. Grâce à une gestion efficace, l'entreprise s'engage chaque jour à suivre et à améliorer l'organisation et le contrôle, à optimiser les processus, à réduire les inefficacités, contribuant ainsi à la qualité des produits et des services. Grâce au précieux travail quotidien, nous avons obtenu la certification ISO 9001:2015.

Nous sommes aujourd'hui présents dans 80 pays, à la recherche permanente de nouveaux marchés et de nouveaux défis.

Since 1988, we've been producing sports and technical clothing able to boost the performance of those who love practising and experiencing sport, guaranteeing top standards of quality, safety and comfort. Customer service and care are our priority: our primary responsibility is to attend to and meet our customers' needs.

What sets us apart from our main competitors is that we are the first company in the teamwear sector in Europe to have obtained Oeko-Tex Standard 100 certification, a further demonstration of why we can be proud of the work we do every day.

The entire production chain is managed at its headquarters in San Polo di Torrile, along with the development of all the manufacturing stages: from the selection of raw materials to the design of the graphics, from prototype production right up to the shipment of the finished garments.

We have chosen to produce our own items because it allows us to guarantee maximum safety, thanks to the meticulous checks we carry out in-house.

Every day, our efficient corporate management strives to monitor and improve organisation and control, optimise processes and reduce inefficiencies, thus boosting the quality of our products and services. This sterling effort we make every day has earned us ISO 9001:2015 certification.

Today we are present in 80 countries and constantly on the lookout for new markets and challenges.

La nostra storia e i nostri obiettivi racchiusi in queste pagine.

Il nostro cuore è italiano ma la nostra mente ci fa viaggiare in tutto il mondo, in ogni sport e a qualsiasi livello

**Our history and our objectives
are illustrated in these pages.**

Our heart is in Italy, but our mind allows us to travel the world, in every sport and at all levels.

Notre histoire et nos objectifs renfermés dans ces pages.

Notre cœur est italien mais notre esprit nous fait voyager dans le monde entier, dans tous les sports et à tous les niveaux

LA PEAU.

Sport is the most beautiful thing in the world, and nothing must be allowed to pollute that beauty. That is why, besides developing increasingly high-performance materials that have a low impact on the environment, we at Erreà are the first teamwear company in Europe to have been awarded **STANDARD 100 by OEKO-TEX®** certification. This certification sets extremely strict limits for substances harmful to health, which is why our fabrics are highly safe in all conditions. **With Erreà, sport and health run side by side.**

Le sport est la plus belle chose au monde et rien ne doit l'entacher. C'est pourquoi, au-delà de la conception de matières toujours plus performantes et respectueuses de l'environnement, Erreà est le premier fabricant européen de vêtements de sport à avoir obtenu la certification **STANDARD 100 by OEKO-TEX®**. Une attestation qui fixe des limites extrêmement strictes en matière de substances nocives pour la santé. Voilà pourquoi nos tissus garantissent un haut niveau de sécurité en toutes conditions d'utilisation. **Avec Erreà, sport et santé vont toujours de pair.**

SIAMO
PER
LO SPORT
PULITO.
ANCHE
SULLA
PELLE.

Lo sport è la cosa più bella del mondo e nulla deve inquinare la sua bellezza. Per questo, oltre a studiare materiali sempre più performanti e a basso impatto ambientale, noi di Erreà siamo la prima azienda in Europa nel settore teamwear ad aver ottenuto la certificazione **STANDARD 100 by OEKO-TEX®**. Un attestato che pone limiti estremamente rigorosi in tema di sostanze nocive per la salute. Ecco perché i nostri tessuti garantiscono un elevato livello di sicurezza in qualsiasi condizione di impiego. **Con Erreà, sport e salute corrono sempre insieme.**

ANTIVIRALE ANTIBATTERICO CERTIFICATO OEKO-TEX

TI-ENERGY: IL NUOVO TESSUTO ANTIVIRALE*

Frutto delle più moderne tecnologie nel campo dei polimeri avanzati e dell'esperienza maturata nell'utilizzo delle nanotecnologie iniziata nel 2008, la sezione Ricerca e Sviluppo di Erreà presenta il **nuovo tessuto antivirale* Ti-energy**.

Si tratta di un importantissimo traguardo raggiunto in ambito tessile ottenuto grazie all'impiego di due distinte tecnologie: la **presenza di nanoparticelle di ossido di zinco** incapsulate in modo permanente nelle fibre di tessuto per ottenere **efficacia antivirale* e antibatterica** e il trattamento **Minusnine J1+** per conferire estrema impermeabilità ai liquidi. Questa duplice funzionalizzazione consente al tessuto di diventare **un'efficace barriera protettiva contro droplet, liquidi, batteri e virus**.

 **Certificato Oeko-Tex Standard 100**, Ti-energy sarà disponibile anche per tutte le società sportive che vorranno utilizzarlo per offrire una maggiore sicurezza ai propri atleti.

*I test eseguiti secondo la ISO 18184, utilizzando il virus SARS-CoV-2, hanno mostrato che il tessuto Ti-energy®3.0 in laboratorio ha una riduzione della carica virale del 99.85% rispetto ad un comune tessuto in poliestere dopo 6 ore di contatto con il virus.

ANTI-VIRAL ANTIBACTERIAL OEKO-TEX CERTIFIED

TI-ENERGY: THE NEW ANTI-VIRAL* FABRIC

Fruit of state-of-the-art technologies in the field of advanced polymers and of the experience gained in the use of nanotechnologies since 2008, the Erreà research and development team is **presenting Ti-Energy, the new anti-viral* fabric**.

This truly important achievement in the world of fabrics was made possible by the use of two separate technologies: **the zinc oxide nanoparticles**, permanently encapsulated in the fibres, **have antiviral* and antimicrobial properties, and the Minusnine J1+ treatment** which makes the fabric super-impermeable to liquids. This dual function allows the fabric to form an effective **protective barrier against droplets, liquids, bacteria and viruses**.

 **Oeko-Tex Standard 100 certified**, Ti-energy will also be available to all sports clubs that want to use it to enhance the safety of their athletes.

*Tests performed in accordance with ISO 18184 using the SARS-CoV-2 virus, have proved that in the laboratory, Ti-energy®3.0 can reduce the viral load by 99.85% compared to a standard polyester fabric six hours after coming into contact with the virus.

ANTIVIRAL ANTIBACTÉRIEN CERTIFIÉ OEKO-TEX

TI-ENERGY : LE NOUVEAU TISSU ANTIVIRAL*

Fruit des technologies les plus modernes dans le domaine des polymères avancés et de l'expérience acquise dans l'utilisation des nanotechnologies, qui a débuté en 2008, la section R&D d'Erreà Sport présente le **nouveau tissu antiviral* Ti-Energy**.

Cet extraordinaire succès en matière textile est le fruit de l'association de deux technologies spécifiques : la **présence de nanoparticules d'oxyde de zinc encapsulées qui restent dans les fibres** de tissu pour déployer leur efficacité antivirale et antibactérienne, et le traitement Minusnine J1+, qui confère une imperméabilité extrême aux liquides. Cette double fonctionnalisation permet au tissu de devenir **une barrière protectrice efficace contre les gouttelettes, liquides, bactéries et virus**.

 **Certifié Oeko-Tex Standard 100**, Ti-Energy sera proposé également à tous les clubs de sport qui souhaitent l'utiliser afin d'offrir davantage de sécurité à leurs athlètes.

*Les tests réalisés selon la norme ISO 18184 avec le virus SARS-CoV-2 ont montré que, en laboratoire, le tissu Ti-energy®3.0 assure une réduction de 99,85% de la charge virale comparé à un tissu commun en polyester au bout de 6 heures de contact avec le virus.

Only take on the opponents you know. **Ti-energy®3.0**, our new **antiviral, antibacterial, antimicrobial and waterproof fabric**, will take care of the rest. Thanks to the zinc oxide nanoparticles permanently incorporated into the fibres and the Minusnine J1+ treatment, this yarn combats, prevents and inhibits the development of invisible enemies while also creating a barrier against water, mould and unpleasant odours. Furthermore, it is **Oeko-Tex® Standard 100 Certified** which means it meets extremely stringent restrictions governing harmful substances. It has taken us twelve years to create a fabric as evolved as Ti-energy®3.0. It will take you just seconds to feel more protected than ever before. **With Erreà, sport, health and safety always run hand in hand.**

*Tests performed in accordance with ISO 18184 using the SARS-CoV-2 virus, have proved that in the laboratory, Ti-energy®3.0 can reduce the viral load by 99.85% compared to a standard polyester fabric six hours after coming into contact with the virus.

ACTIVE TENSE LITE

- Maglia collo a giro, dotata di zone a tensione differenziata ed esoscheletro in resina
- The resin exoskeleton is positioned and concentrated on the upper part of the body for the purpose of stabilizing the shoulders and improving posture
- Le fasce elastiche interne sono studiate e realizzate per sostenere il deltoide e il trapezio
- The inner elastic bands are designed and produced to support the deltoid and trapezoid muscles
- Le zone a tensione differenziata grazie ai diversi attriti determinano effetti stabilizzatori sui muscoli e sulle articolazioni
- The differentiated tension zones, because of different friction, have stabilizing effects on the muscles and joints
- Maillot col rond à manches courtes avec des zones à tension différenciée et un exosquelette en résine
- L'exosquelette en résine est positionné et se concentre sur la partie supérieure du corps dans le but de stabiliser les épaules et d'améliorer la posture
- Les bandes élastiques internes ont été étudiées et réalisées pour soutenir le deltoïde et le trapèze
- Les zones à tension différenciée grâce aux différents frottements déterminent des effets stabilisateurs sur les muscles et sur les articulations
- Maillot col rond à manches courtes avec des zones à tension différenciée et un exosquelette en résine
- L'exosquelette en résine se concentre sur les principaux muscles de la cuisse pour en améliorer la fonctionnalité.
- Les bandes élastiques internes, réalisées pour soutenir les quadriceps et les fléchisseurs, créent un important soutien aux bandes et à la musculature des adducteurs.
- Les vibrations musculaires sont sensiblement réduites
